Should the teams remain tied, each team will rotate through their line-up one player at a time taking penalty shots until after each round of shots, one team has scored and the other hasn’t.”

Regarding the final game, *the existing rule says:*

[If game tied at the end] “...a 5-minute rest will be allowed and will be followed by continuous 15-minute non-stop sudden death periods as long as time allows. If the game is still tied after the overtime, then the teams will play shoot out. The rules for shoot out are the same as stated [for the semi-final game, above].
